Land in Barbat on Rab for luxury villa construction, 250 meters from the beach, with sea views!

Total area is 1904 sq.m.

Meant for residential construction.

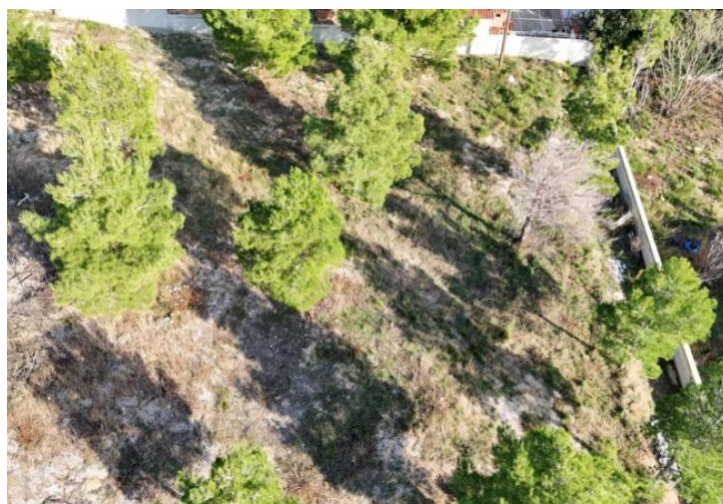

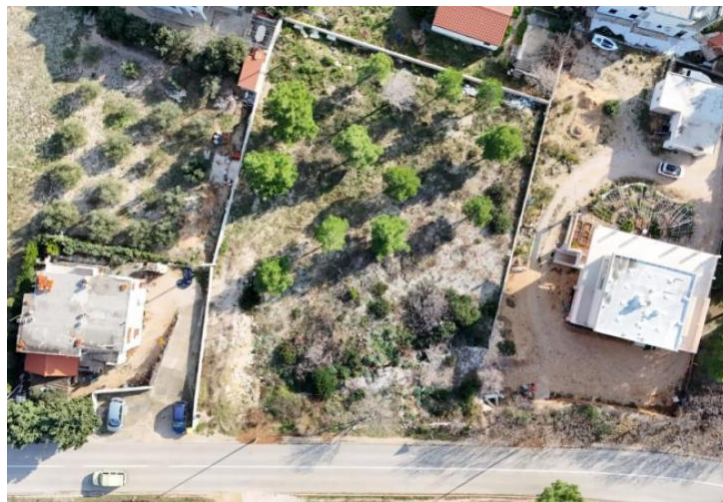

The conceptual project includes the construction of two detached villas with a swimming pool, completely hidden from view, thus providing an intimate stay in the villa. The access road is from the asphalted road, and all the necessary infrastructure to the field. If the land is sold without project documentation, it is possible to change the price per m2.

Considering the size of the land, there is a possibility of subdivision into several parcels. Exceptional location, in a quiet place near the necessary facilities.

Overall additional expenses borne by the Buyer of real estate in Croatia are around 7% of property cost in total, which includes: property transfer tax (3% of property value), agency/brokerage commission (3%+VAT on commission), advocate fee (cca 1%), notary fee, court registration fee and official certified translation expenses. Agency/brokerage agreement is signed prior to visiting properties.
