Ideal for the concept of a presidential-level boutique hotel.

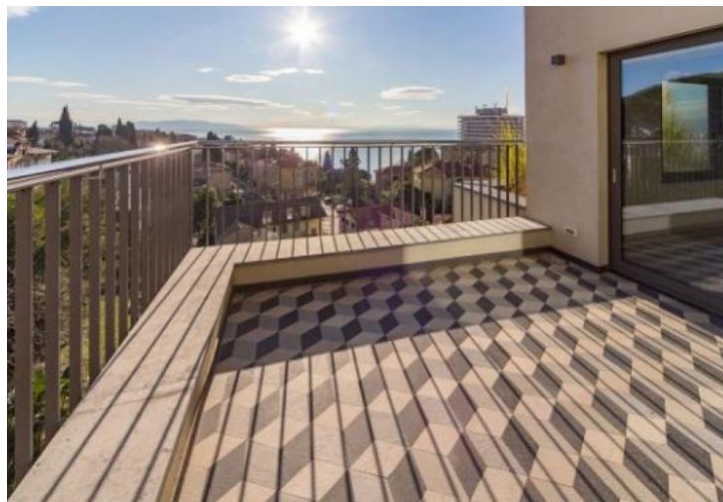

Opatija is one of the most popular spa places in Croatia for the past 150 years. Magnificent subtropical climate, Austro-Hungarian architecture, twelve kilometer promenade along the sea, an abundance of big names are just some of the reasons for popularity. The main residential and tourist fund of Opatija is old enough. Therefore, any new facility in the city center is a kind of pearl in the market. This building is precious in every respect, because it combines the exclusivity of the location with the unique quality of construction for Croatia. There is no second such facility on the market. Zagreb Airport is 185 km away.

NOTE: Two apartments in the building are now occupied by investor representative.

Overall additional expenses borne by the Buyer of real estate in Croatia are around 7% of property cost in total, which includes: property transfer tax (3% of property value), agency/brokerage commission (3%+VAT on commission), advocate fee (cca 1%), notary fee, court registration fee and official certified translation expenses. Agency/brokerage agreement is signed prior to visiting properties.
