Just minutes from the center of Labin and only 10 kilometers from the sea, this newly built single-storey villa with a private pool offers a perfect blend of traditional charm and modern energy-efficient living. Currently in the final phase of construction, the property will be delivered fully finished, including a beautifully landscaped Mediterranean-style garden.

Spanning 107.75 m² of interior space, the home includes two comfortable bedrooms and two bathrooms. The open-concept layout seamlessly connects the kitchen, dining area, and living room, creating a bright and inviting living space. Designed with both comfort and style in mind, the home features underfloor heating in the bathrooms, a wood-burning fireplace in the living room for added warmth and ambiance, and a modern heat pump system for year-round heating and cooling.

Adding to its value, the house will be energy independent thanks to the installation of solar panels for electricity production—an ideal solution for sustainable living. In the center of the large fenced yard, a 32 m² swimming pool with a stylish sunbathing area will offer the perfect retreat for enjoying long summer days.
