Luxury property description:

Upon entering the villa, one finds oneself in the foyer, which demarcates the private space from the living quarters of the villa. The living area of the villa is conceived as an "open space" where the dining room with a modern and fully equipped kitchen, featuring top-notch appliances from a renowned global manufacturer, resides. In addition to the standard appliances, a personalized minibar is discreetly nestled in the kitchen, maintaining your favorite beverages at an optimal temperature. The kitchen also houses a professional gas stove with a high-quality hood, situated on a kitchen island ideal for family or friend gatherings.

Further into the space, a spacious living room is artistically separated from the kitchen and dining area by a modern semi-open wood-burning fireplace, creating a special ambiance during one's stay, coupled with effective space heating. The living room welcomes us with a carefully selected leather suite, custom-made exclusively for this villa. At the end of the living room, a small office space is tucked away.

To enhance the stay in the villa, the owners have ingeniously extended access through the kitchen to a larger covered outdoor terrace, adorned with large sliding glass doors. These doors can be fully closed, allowing the terrace to be used even during winter months, thanks to the heating possibilities, or entirely opened during warmer months, creating a high-quality outdoor space with direct communication to the rest of the yard and the spacious pool.

Adjacent to this terrace is an outdoor barbecue, perfect for entertaining friends and family, as well as preparing your favorite delicacies.

In the private part of the ground floor, a technical room, utilized as both storage and a larger bedroom currently serving as a children's playroom with its private bathroom, is situated.

Through an interior staircase adorned with a glass railing and a large glass wall extending from the ground floor to the upper floor, adding airiness and brightness to the entire space, we access the first floor, where five bedrooms are located. Among these five bedrooms, one serves as the master room with its spacious private bathroom, offering a stunning view through a glass wall towards the landscaped yard and pool. Adjacent to the master room is an additional room used as a bedroom for the youngest family members, which future owners can repurpose according to their needs. Additionally, two more bathrooms are found on this floor.

The villa's yard is completely fenced and landscaped in the same tone as the villa, featuring plenty of greenery and domestic plants. A smart irrigation system takes care of the vegetation on the property, and a unique atmosphere is created at night with a cleverly designed lighting system.

On the front side, there is a covered parking space for two cars, while the rest of the territory is accessible through well-maintained pathways. At the rear of this charming new villa, there is a small area for entertainment with table tennis, while the saltwater pool (through electrolysis) is located in the private part of the yard. Next to the pool is an outdoor bathroom functional during outdoor stays, as well as a small storage room with pool equipment.

Additional advantages:

- During construction, the owners attended to every detail with the goal of creating a family home.
